U.S. COMMERCIAL NUCLEAR ENERGY MISSION TO THE UNITED ARAB EMIRATES

December 13-15, 2009 | Abu Dhabi, United Arab Emirates

Save the Date

Please join the Nuclear Energy Institute and the U.S.-U.A.E. Business Council for a U.S. Commercial Nuclear Energy Mission to the United Arab Emirates.

OBJECTIVES

The Mission will enable U.S. commercial nuclear executives to:

- Assess evolving market opportunities for reactors, fuel, components and services.
- Understand the status of essential legal and regulatory measures governing the U.S.-U.A.E. commercial nuclear trade.
- Develop, build and expand relationships with U.A.E. civilian nuclear suppliers, developers, contractors, and potential commercial partners.

AGENDA

The Mission will begin in Abu Dhabi on Sunday, December 13, with a mission orientation and welcome delegation reception.

Monday, December 14 through Tuesday, December 15, will be devoted to meetings with the U.S. Embassy, senior U.A.E. officials, the Emirates Nuclear Energy Corporation, the U.A.E. Federal Authority for Nuclear Regulation, and potential partners to U.S. companies.

We hope you will join this important effort. Early registration is recommended as space is limited.
