GIB Asset Management

December 2023

London, U.K.

Fast Facts

\$8+ billion

of institutional assets managed*

Introduction

GIB Asset Management (GIB AM) is a boutique institutional asset manager seeking to generate superior investment performance through deep integration of sustainability into investment decision-making and hence scale capital to support sustainable development.

Operating out of London and New York, GIB AM manages over \$8bn of assets for investors across international jurisdictions, covering active and passive investment strategies.

GIB AM believes in the power of collaboration, and their thought-leadership themes are based on the challenges facing people and the planet. They often cover more complex or frontier areas, as they feel this is the future of ESG investing.

In previous years, they have been awarded:

Best Sustainability and Thought Leadership Europe
(Wealth for Good Awards, 2022)

ESG Innovation of the Year
(Environmental Finance, 2021)

Key partnerships/signatories

1. **Principles for Responsible Banking** (2022)
2. **Principles for Responsible Investment** (2018)
3. **Net Zero Asset Managers Initiative** (2021)
