ABOUT CHILDREN'S NATIONAL HOSPITAL

Children's National Hospital located in Washington, D.C. was established in 1870 with 12 beds for children displaced after the U.S. Civil War. Over the years Children's National's commitment to caring for children has grown to include innovative pediatric care, cutting-edge research, and educating the next generation of diverse healthcare providers. Now, 150+ years stronger, Children's National is ranked among the top 5 children's hospitals in the United States. Children's National's newborn care was ranked No. 1 for six straight years. A *U.S. News & World Report* Honor Roll Hospital, Children's National is transforming pediatric medicine for all children. The Children's National Research Institute and the Sheikh Zayed Institute for Pediatric Surgical Innovation have led the development of innovative therapies and devices for children. In 2021, the Children's National Research & Innovation Campus was opened as the first in the U.S. dedicated to pediatric research. Children's National has been designated three times as a Magnet® hospital, demonstrating the highest standards of nursing and patient care delivery. As a pediatric academic healthcare system, Children's National is recognized for its expertise and innovation in pediatric care, research, and education, and as a strong voice for children in its community, nation, and around the world.

ABOUT GLOBAL SERVICES DIVISION

For over 30 years, the Global Services Division has been a leading provider of pediatric care for families around the world. Children's National understands that seeking medical attention abroad can be overwhelming, and it offers a seamless and culturally sensitive care journey, from remote second opinions to in-person treatment in the United States.

Children's National is committed to providing you with:

- Experienced Team: Children's National's multilingual staff provides world-class service and ensures a comfortable experience for patients and families
- Cultural Sensitivity: Children's National is well-versed in the linguistic and cultural needs of the global community
- 24/7 Support: Children's National's team is available around the clock to support and provide peace of mind throughout the treatment journey

Children's National's goal is simple: to deliver exceptional pediatric care while making the experience as stress-free as possible for its patients.

RESEARCH

More than 70% of Children's National's research funding comes from federal agencies, including 59% from the National Institutes of Health (NIH). Children's National researchers are investigating a multitude of pediatric diseases and novel treatments through their institutes, centers and offices:

- Center for Cancer and Immunology Research
- Center for Genetic Medicine Research
- Center for Neuroscience Research
- Center for Prenatal, Neonatal and Maternal Health Research
- Center for Translational Research
- Clinical and Translational Science Institute
- Office of Academic Affairs
- Office of Medical Education
- Rare Disease Institute
- Sheikh Zayed Institute for Pediatric Surgical Innovation
