Iron Mountain's global presence

## Introduction

Iron Mountain protects, unlocks and extends the value of customers' information and assets throughout their lifecycle - whatever they are, wherever they are, however they're stored. Iron Mountain provides the insight and power to accelerate businesses and drive organizations forward.

Since 1951, Iron Mountain Incorporated (NYSE: IRM) has been a strategic partner to care for this work. A global leader trusted by more than 225,000 organizations around the world including 95% of the Fortune 1000, Iron Mountain provides solutions that include information management, digital transformation, secure storage, secure destruction, as well as data centers, cloud services, and art storage and logistics. The company helps customers lower cost and risk, comply with regulations, recover from disaster, enable a more digital way of working and achieve their sustainability goals.

Iron Mountain's model is built on true partnerships where customers trust the company not only to preserve institutional knowledge and enhance efficiency, security, and access but to make their work mean more. In that, work is the power to not only accelerate business, but elevate it.

## Notable U.S.-U.A.E. Partnerships

As a U.S.-headquartered company with an established presence in the United Arab Emirates, Iron Mountain supports organizations across the U.A.E. with information management, secure storage, data protection, and digital transformation solutions. By bringing global expertise and best practices to the local market, Iron Mountain helps public and private sector organizations strengthen compliance, enhance resilience, and manage information securely throughout its lifecycle.

Iron Mountain's continued investment in the region reflects the growing importance of the UAE as a hub for innovation, digital infrastructure, and international business. Through its operations and customer relationships across the country, the company contributes to the strong commercial ties between the United States and the United Arab Emirates while supporting the UAE's ongoing digital transformation ambitions.

## Leadership

### Wojciech Bajda

#### VP and Head of MENAT

Iron Mountain

Mr. Wojciech Bajda is a global technology and business leader with more than two decades of experience driving enterprise growth, digital transformation, sales leadership, and innovation across Europe, the Middle East, and Africa. Mr. Bajda currently leads Iron Mountain's business across the MENAT region, with a strong focus on accelerating the company's digital transformation agenda and expanding its digital offerings, including intelligent information management, digitization, AI-powered content services, and data-driven enterprise solutions.

In his current role, he works closely with organizations across the region to help transform legacy information into secure, compliant, and AI-ready digital assets that enable innovation, operational efficiency, and enhanced decision-making capabilities.

Prior to joining Iron Mountain, Mr. Bajda served as Managing Director for Public Sector and Regulated Industries at Amazon Web Services (AWS) across the Middle East, Africa, and Turkey. In this role, he led large-scale cloud and AI transformation initiatives across government, education, healthcare, telecommunications, and energy sectors. Mr. Bajda also held leadership roles at AppliedAI, where he contributed to advancing enterprise AI adoption by building and scaling a global enterprise sales organization and supporting organizations in implementing AI-native, human-supervised business processes.

Earlier in his career, Mr. Bajda spent nearly 22 years at Ericsson, including serving as President GCC, where he led complex multi-market operations and managed strategic relationships with leading telecom groups including Orange, Vodafone, Zain, T-Mobile, and Millicom, as well as government entities across the region. Mr. Bajda holds an MSc in Electronics Engineering as well as an MBA.
