12 May 2026

Dear Members and Partners,

I write to share the U.S.-U.A.E. Business Council's latest report below highlighting the continued growth and broadening diversity of the U.S.-U.A.E. trade, commercial, and investment partnership.

We are releasing this report on the anniversary of President Donald Trump's May 15-16 2025 state visit to the United Arab Emirates. This visit marked an important milestone in the evolution of the bilateral partnership and underscored the expanding cooperation between the United States and the U.A.E. across artificial intelligence, energy, defense, advanced manufacturing, tourism, and healthcare and life sciences.

The U.S.-U.A.E. Business Council was honored to support these efforts, including by helping convene the business roundtable with President Trump that brought together senior government officials and private sector leaders from both countries.

This paper endeavors to provide a comprehensive "snapshot" of the major announcements, commercial agreements, investments, and strategic initiatives that emerged from this period of heightened engagement.

Should you have any questions regarding the report or wish to discuss any of the initiatives highlighted, please do not hesitate to contact the U.S.-U.A.E. Business Council.

With Gratitude,

Danny Sebright
President
